

# IRIDIUM EXTREM PTT

REVOLUTIONIZING  
COMMUNICATION  
SATELLITE  
SERVICES

## Iridium Push-To-Talk (PTT) — Instant Global Group Communication

Iridium PTT is a satellite-based, push-button communication service designed for teams operating in remote, rugged, or cross-continental environments. It delivers instant, reliable voice connectivity anywhere on Earth — even far beyond cellular coverage.

### Subscription Options

#### Handset Subscription (per device)

- Quarterly: \$372 (\$124/month)
- Annual: \$936 (\$78/month)
- Prepaid service; month-to-month after initial term.
- One-time activation fee: \$60 per talk group.

#### Talk-Group Plans (per month)

- Worldwide (excl. Middle East): From \$0 (promo, 5+ devices) to \$3,200, depending on coverage size (100,000 km<sup>2</sup> to 2,250,000 km<sup>2</sup>).
- Middle East: From \$650 to \$16,000, depending on coverage size.

## How the Service Works

- Choose Handsets — Select the number of Iridium PTT devices for your team.
- Select a Talk-Group Plan — Match your coverage area and group size to your operational needs.
- Activate & Configure — We set up your subscriber organization, activate devices, create talk groups, and provide access to the PTT Command Centre for user and device management.

## How Coverage Works

- Talk groups can include up to 10 service areas anywhere in the world.
- Coverage areas are custom-drawn in the PTT Command Centre.
- Changes to coverage or group members take effect within seconds.
- All communications are AES-256 encrypted for security.

## Ideal Use Cases

- Emergency Response & Disaster Relief — Coordinate multiple teams across regions instantly.
- Defense & Security — Secure, encrypted comms in high-risk zones.
- Utilities & Energy — Manage field crews in remote or offshore locations.
- Transportation & Logistics — Keep fleets connected across continents.
